Jaelin Neal's Junior High Camping Trip
at Green Valley Camp, July 31 to August 3, 2016

My favorite part of going to Green Valley Camp was meeting new people who were from different parts of the world. I enjoyed learning about their cultures. I met boys from Columbia, France and Mexico. The boy I met who was from Mexico told me he was part Belizean.

Other activities I enjoyed included hiking in the woods, playing archery and playing soccer. The camp allowed me time to explore new things such as climbing trees and swimming. I participated in many outdoor activities but the height involved in the zip-line was a little too scary for me so I did not try it. I thought the best songs performed at the camp were "You're a Good Father" and "So Good to Me." The best devotions were "Real Love" and "Love Defined."

I also enjoyed playing Ping-pong, hiking on the trails, the morning devotions and studying the Bible. Next time, I will bring a bigger Bible to replace my pocket-sized Bible. At the camp, I made the decision to be baptized and for others to pray for me. Tutoring other kids on the devotions is something I would like to do in the future. I would also like to work on improving my performance in soccer. It would be great if the camping trips were longer next time.

I would like to give special thanks to Sister Mona, Brothers Bob, Jason and Tony and all of the staff, sponsors and everyone who helped make my visit to Green Valley Camp possible. The counselors were nice and they were also funny and even though the adults were strict, they were fun to be around too. I would love to come back and participate in the winter camp.
